

UNDERSTANDING AUTISM

Aged 19+ at the beginning
of the academic year

Lived in the EU
for 3 years

Available
fully funded

Autism is a spectrum condition that affects how a person communicates with others and how they interpret the world around them. There are around 700,000 people in the UK with autism – more than 1 in every 100. Having a clear understanding of the misconceptions, diagnoses and support surrounding autism are just some of the essential skills needed when working in mental health.

Benefits

- Achieve a nationally recognised Level 2 qualification
- Improve your understanding of theories relating to autism
- Further your personal and professional development
- Ensure you understand what is meant by autism and how it is diagnosed
- Learn at a time that suits you without the need to attend college

What you will learn

- Introduction to Autism
- Using a Person-Centred Approach to Support Individuals with Autism
- Communication and Social Interaction in Individuals with Autism
- Sensory Processing, Perception and Cognition in Individuals with Autism
- Supporting Positive Behaviour in Individuals with Autism
- Supporting Individuals with Autism to Live Healthy and Fulfilled Lives
