

SHORT COURSE

FIRE WARDEN/MARSHAL

A Fire Warden plays an important part of an organisations fire safety procedures. Organisations will usually appoint one or more people in each office, shift pattern or area to ensure coverage across the operational hours. A Fire Warden will work with the employer to ensure fire evacuation procedures are effective and will contribute to the fire prevention strategy.

LEARNING OUTCOMES

- Describe the basic principles of fire safety and the various classifications of fire.
- Identify ways to reduce the risk of fire in the workplace.
- Raise the alarm quickly and react to fire appropriately.
- Recognise different types of firefighting equipment and extinguishing methods.
- Contribute to creating and maintaining fire risk assessments and evacuation plans.
- Carry out a fire drill to check the effectiveness of evacuation procedures.

ACCREDITATION

CPD accredited with 2 CPD credits.

DURATION

Approximately 90 mins. Complete within 6 months of course registration.
